

## Searching for experienced and dedicated Medical and Vocational Case Managers

Argent Rehabilitation ([www.argentrehabilitation.uk.com](http://www.argentrehabilitation.uk.com)) is in yet another exciting growth stage in order to meet the needs of our customers and clients.

Argent Rehabilitation provides a comprehensive range of services to help anyone who has suffered an injury or experienced an illness to get back to as near their pre-event physical, functional and vocational status as possible.

**In a recent case, our rehabilitation case manager assisted a young man who suffered serious injury to his leg and shoulder in a motor cycle accident. The client was planning to join the police force and this goal was placed on hold while we assisted him to maximize his strength, stamina and maintain good mental health. Our case manager organised physiotherapy initially and later a structured gym program. Our case manager closely monitored the client's coping skills and mood and provided self help guides and coaching to optimise his mental health. Our case manager liaised with the client's former employer and facilitated a graded return to hours and duties. Furthermore we helped the client locate and commence volunteer work to better position him for his longer term goal of the police force. If this case study outlines the sort of difference you hope to make in your job, then read on!**

Argent Rehabilitation is seeking nurses, physiotherapists, vocational case managers and occupational therapists to provide face to face or telephone case management services for injured persons.

You must hold a recognised clinical qualification for a medical case manager role or have experience and/or clinical qualification for a vocational case manager role. You must have excellent communication skills and proven ability in developing successful relationships with both your team and clients. Skills in professional report writing are also important as are effective IT skills. Ideally the candidates will have experience in case management and/or highly developed planning and organisational skills.

We are a national provider and can offer roles in Croydon or have you work from your home. We are an Equal Opportunities employer. Salary negotiable dependent on skills and experience.

If you would like to apply, please forward your CV to:  
[gary.johnston@argentrehabilitation.uk.com](mailto:gary.johnston@argentrehabilitation.uk.com) or by post to Gary Johnston, Operations Manager, Argent Rehabilitation, 8 Bedford Park, Croydon, CR0 2AP.

Argent Rehabilitation is part of the Parabis Group, a multi-disciplinary organisation specialising in legal, non-legal supply and professional services to the insurance, travel, healthcare and related industries.
